Reason for allowance

1. The following is an examiner's statement of reasons for allowance: the present invention relates to a system for improving power of a hybrid flip-flop. The independent claims 1, 8, 20 and 29 recite a method and an apparatus for reducing power consumption in a memory circuit, comprising a pre-charge stage for determining a pre-charge stage output depending upon a data input and a data output during a transparency window; and an evaluation stage for evaluating said pre-charge stage output to produce said data output during said transparency window; wherein when said data input and said data output have high logic levels, said pre-charge stage output has a low logic level; and wherein when said data input and said data output have said high logic levels through a subsequent transparency window, said pre-charge stage output remains at said low logic level through said subsequent transparency window. The PRIOR ART fails to disclose or suggest such a method and an apparatus for reducing power consumption in a memory circuit having a feature of "said data input and said data output have said high logic levels through a subsequent transparency window, said pre-charge stage output remains at said low logic level through said subsequent transparency window" as described in the independent claims 1, 8, 20 and 29, therefore, claims 1-29 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571) 272-1871. The examiner can normally be reached on M-F (7:00-3:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Elms can be reached on (571) 272-1869. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
